

## Bethel child sponsorship

### supports

- 24/7 foster care
- Therapy
- Education
- Food & clothing

*"We have learned so much about the incredible abilities of people with visual impairments through our sponsor child - he has touched our lives!"-- Nick, sponsor*

Our vision is simple: "Children with visual impairments living life to the fullest, as equal members of society." We care for over 60 visually impaired orphans in China. Without intervention, they face tremendous obstacles in education and every day life. At Bethel, they learn to be independent, but more importantly, they learn that they are loved. Our sponsorship program is a way for people to partner with us as we offer these children a full, happy life.

*"Our sponsorship experience not only opened our hearts to children with visual impairments, but also helped us realize our own desire to be a part of something bigger." --Jennifer, sponsor and adoptive mother*
